

Advanced PVD & PECVD Coating Systems

For over 40 years, VTI has been a trusted leader in the **design & manufacture of custom PVD and PECVD coating equipment** for high-vacuum surface treatments.

Our systems provide high productivity, repeatability, and performance for even the most complex materials and geometries.

TECHNOLOGIES

Cathodic Arc | VTI[®] HC3036

Sputtering | Press-Side[®] 4000 SL

Plasma PECVD | Press-Side[®] 38

Thermal Evaporation and/or Sputtering | Lean[®] 710

Thermal Evaporation | TEMS[®] 1400H

APPLICATIONS

- Decorative & Functional Coatings
- Wear & Corrosion Protection
- Optical & Electronic Layers
- Lighting & Automotive
- Aerospace & Medical

WHY VTI

- Custom Engineered Coating Solutions
- Solutions for Complex Parts & Geometries
- Proven Reliability & Scalable Platforms
- Global Installation, Service & Support
